

# Praise and Worship

# Worship

One of my favorite weapons

Ushers in the presence of God

Kingdom of darkness cowers at the presence of the lord

Make it fun- Most people associate worship with boring hymns and only slow singing songs. Find music that suits your personality. God is completely out of the box so do not think, only slow tunes can usher in his presence. God is fun so have fun with your worship time with him

# Praise

We all love to be praised- We are made in his LIKENESS and image so I like to think we get this from him. I like to joke with him about this.

When I am warring, there is nothing like feeling God just stepped in the room as I praise him. It is wonderful.

Just praise him for everything he has done, is going to do, and for simply being him. Lift his name up, Give him glory. He deserves our praise and as you do this, the atmosphere around you will change. I know from personal experience.

Brag on your heavenly daddy and things will shift

# Worship and Praise Displayed as Weapon in the Word

Josephat wins the battle over Moab and Ammon-<sup>20</sup> Early in the morning all the people left for the Desert of Tekoa. As they started out, Jehoshaphat stood up. He said, "Judah, listen to me! People of Jerusalem, listen to me! Have faith in the Lord your God. He'll take good care of you. Have faith in his prophets. Then you will have success." <sup>21</sup> Jehoshaphat asked the people for advice. Then he appointed men to sing to the Lord. He wanted them to praise the Lord because of his glory and holiness. They marched out in front of the army. They said,

"Give thanks to the Lord.

His faithful love continues forever."

<sup>22</sup> They began to sing and praise him.

# Activation

Find a song (you can even use a love song) and sing it to God

Take note how the atmosphere changes around you (if you dont feel anything, its ok)

Find times in the day to just praise God for simply who he is and all that he has done.
